Hybrid meetings and online events

Our hybrid and online meeting options offer flexibility depending on the type and size of event, providing choices for on-site and remote attendees. Our in-house team will ensure that your event is delivered and presented effectively to all delegates without compromising on quality.

What is a hybrid meeting?

Giving your delegates the best of both worlds, hybrid meetings allow for an event to take place with a mix of in-person delegates attending, with additional participants able to join and interact remotely online via our web conferencing platform.

What is an online meeting?

With no in-person attendees, an online meeting is streamed to all participants wherever they may be. Speakers at your event will have the option of presenting from a studio setting at the Golden Jubilee Conference Hotel, or dialing in remotely.

Smart meeting spaces

Perfect for small meetings and round table discussions that require little support. All of our meeting rooms offer a quick and easy way for you to connect to your meeting platform of choice.

As standard, all of our meeting rooms include:

- 4K display
- Polycom Studio System - 4K webcam with studio quality audio
- High specification desktop PC with high speed wired internet access or wirelessly connect your own device using the Barco Conference Clickshare
- AV support via our conference buzzer
- Free Wi-Fi for delegates

Optional extras:

- High speed wired internet access for your own device
- Private in-room Wi-Fi
